Paris, France

FAVA-MULTI

# Why competitors ?

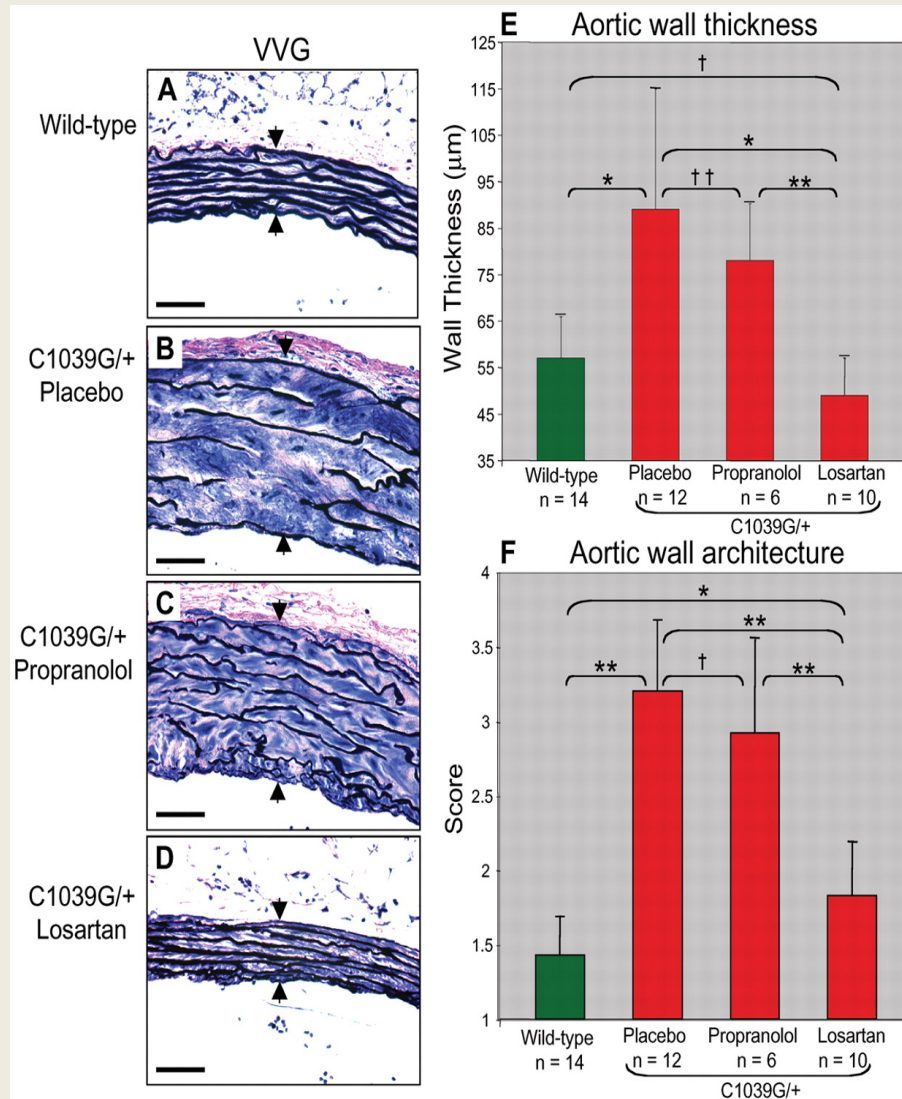

## Positive hemodynamic effect

- Bradycardia (less cardiac ejection): BB
- Aortic compliance : decreased rebound wave: ARB
- Decreased blood pressure : BB and ARB

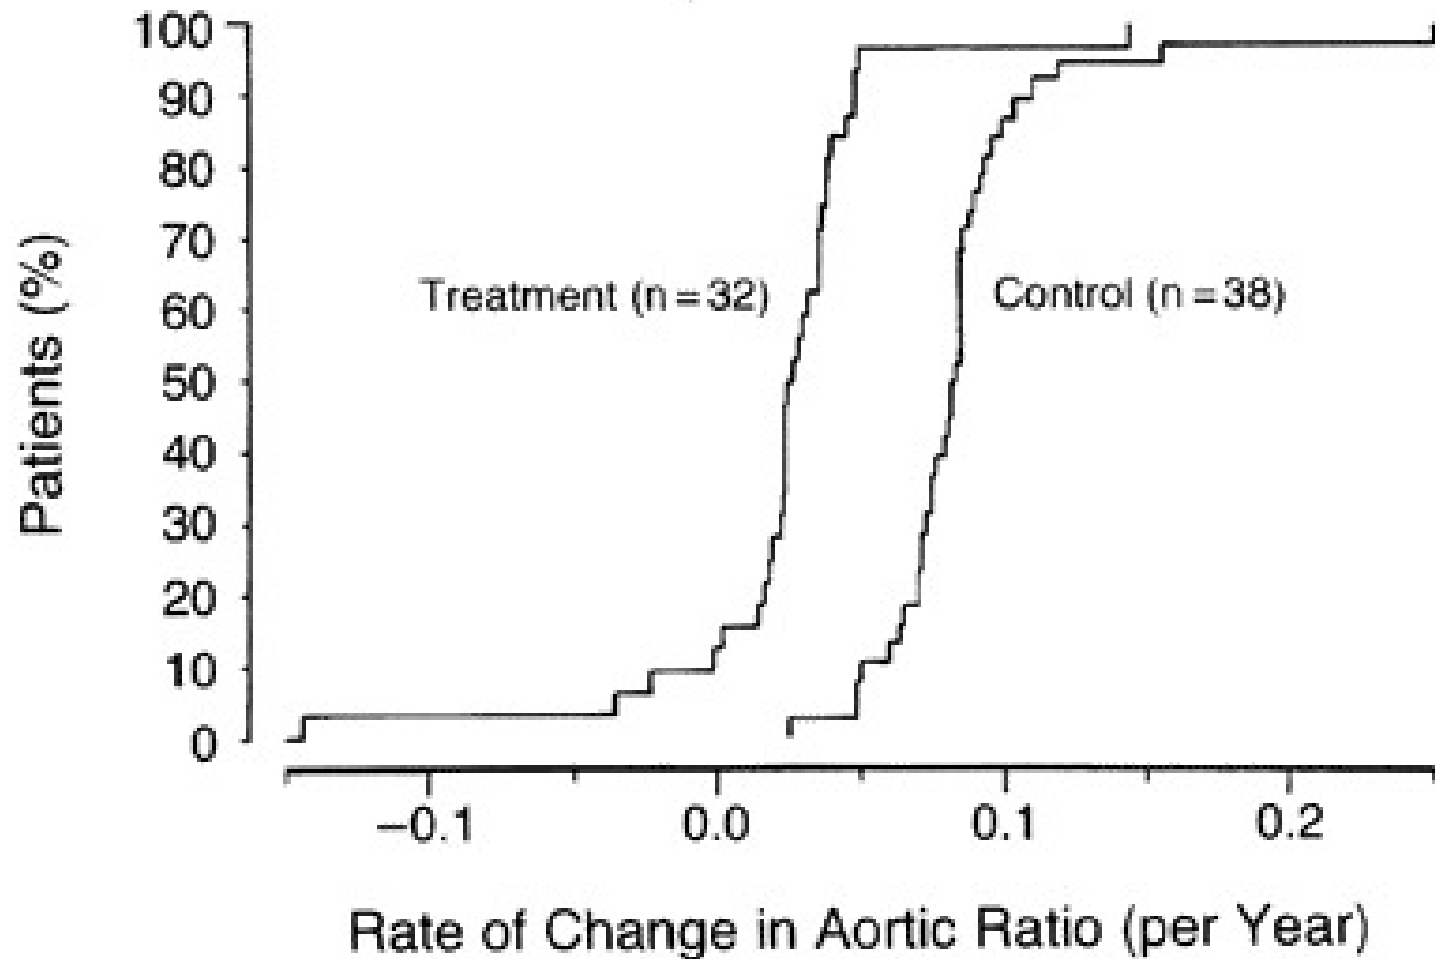

## Side effect

- Renal action : ARB
- Asthma, fatigue, libido, bradycardia: BB
- Blood pressure

# Habashi JP Science 2006;312:117

# NEJM

# Decrease in BP Shores

CHARACTERISTIC	CONTROL (N = 38)		TREATMENT (N = 32)	
	MALE (N = 19)	FEMALE (N = 19)	MALE (N = 20)	FEMALE (N = 12)
Initial aortic diameter				
Measured (mm)	31.1±6.9	29.4±6.8	36.7±9.3†	31.2±5.3
Expected (mm)	24.6±3.9	23.3±3.2	25.5±4.1	23.3±4.2
Ratio	1.27±0.19	1.27±0.26	1.43±0.26	1.37±0.20
No. with mitral-valve prolapse	12	14	12	10
No. with mitral regurgitation	5	5	5	7
Blood pressure (mm Hg)				
At entry	118/72±14/11	110/70±13/10	115/73±13/10	115/69±14/13
During optimal dose	—	—	108/66±15/11‡	108/63±8/7§
Heart rate (beats/min)				
At entry	78±18	79±17	74±9	84±14
During optimal dose	—	—	59±9.1¶	59±8¶
Systolic time interval				
At entry	0.38±0.22	0.36±0.18	0.39±0.17	0.35±0.15
During optimal dose	—	—	0.56±0.22¶	0.47±0.26¶

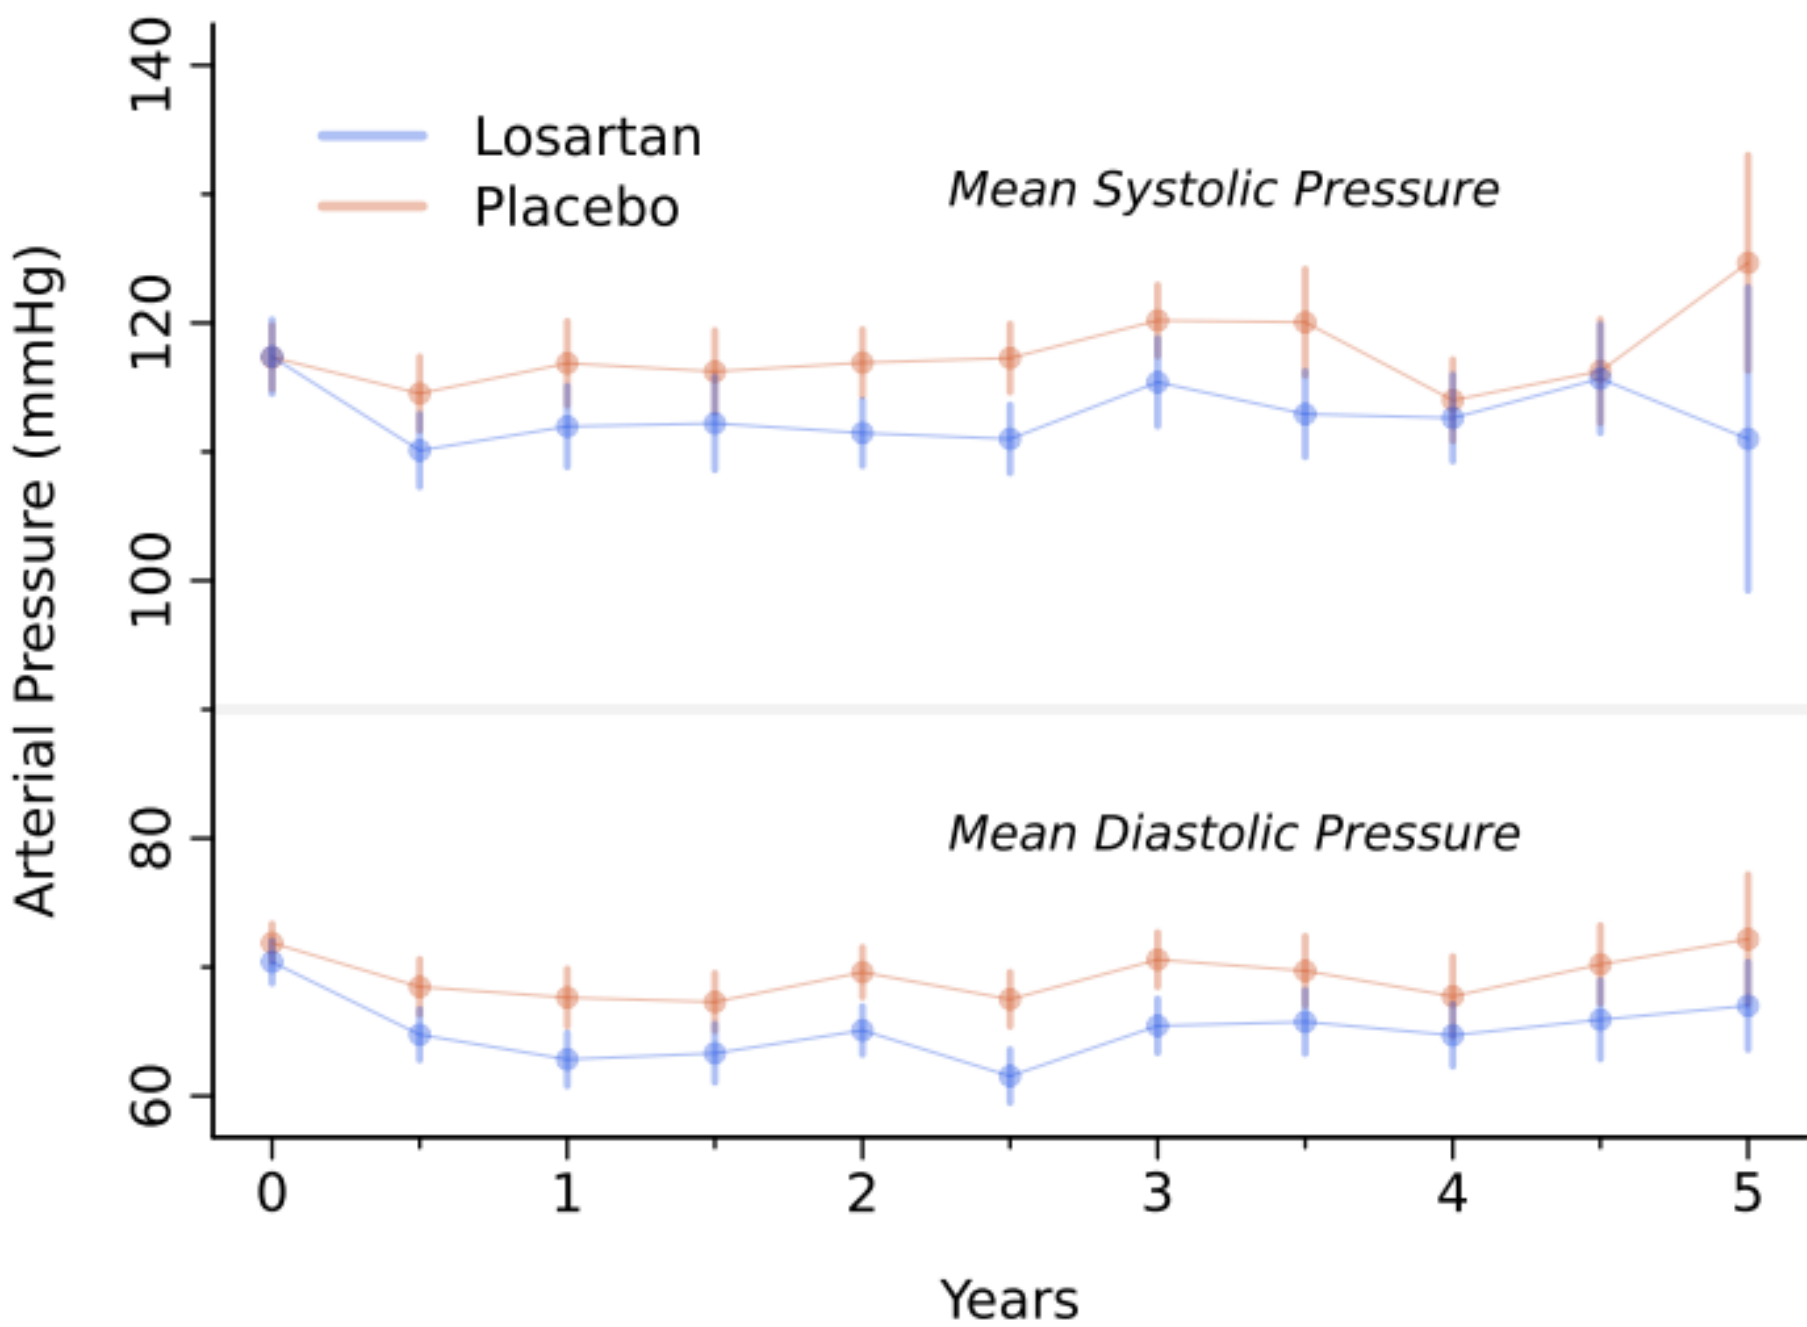

\*Plus-minus values are means ±SD.

†P<0.05 for the comparison with the male controls.

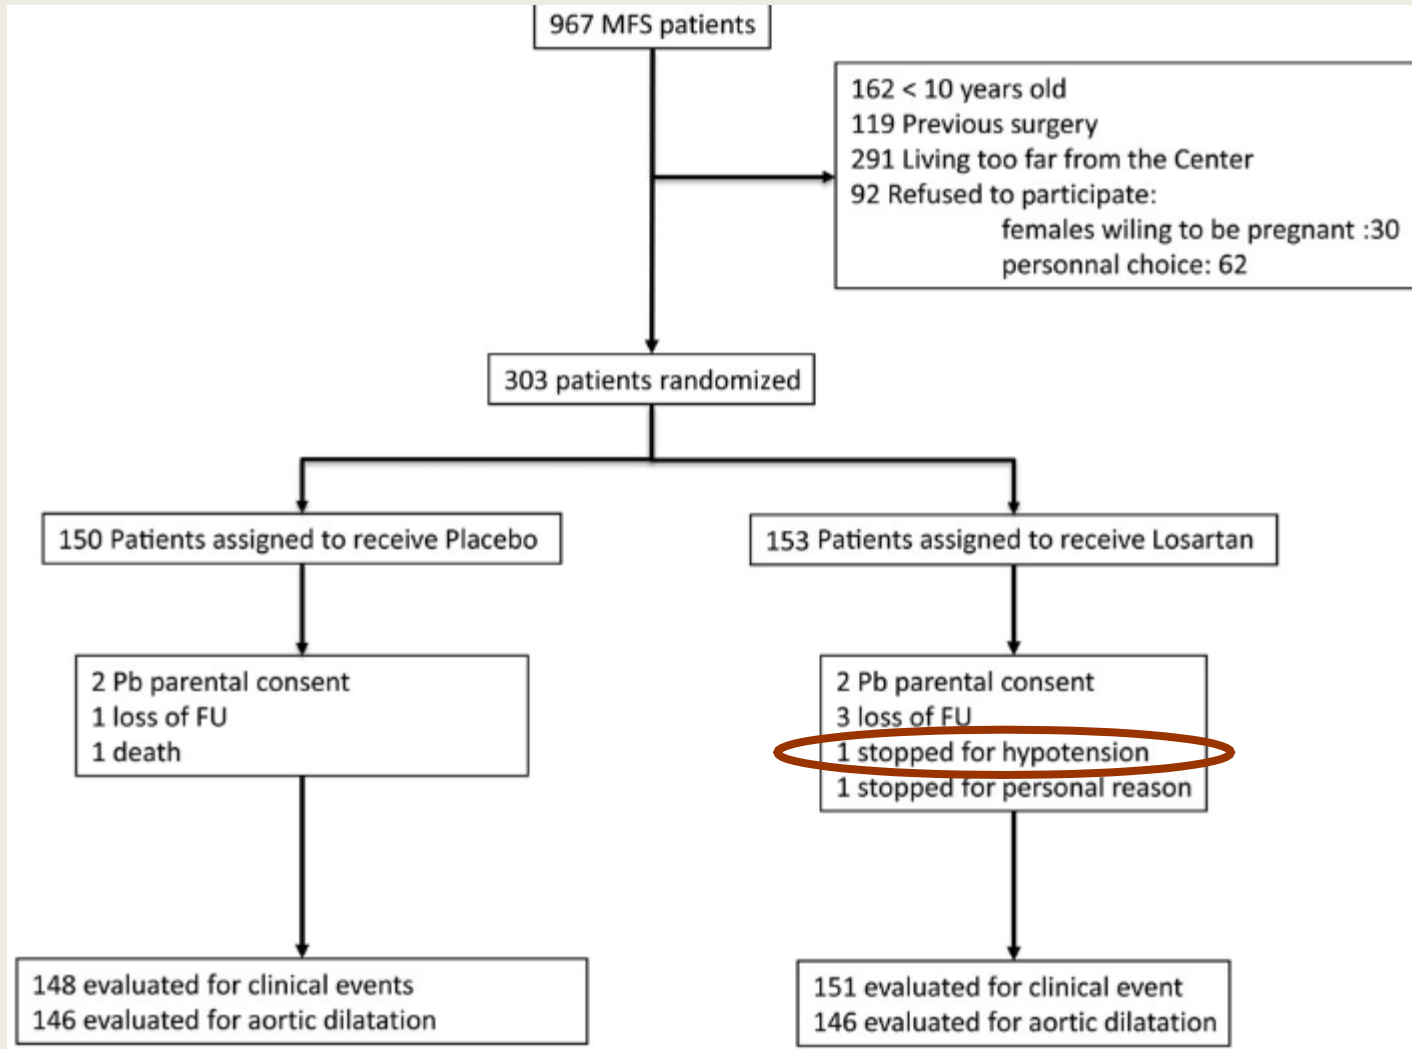

‡P = 0.006 for the comparison with the mean systolic pressure at entry and P = 0.045 for the comparison with the mean diastolic pressure at entry.

§P = 0.06 for the comparison with the mean systolic pressure at entry and P = 0.051 for the comparison with the mean diastolic pressure at entry.

¶P<0.001 for the comparison with the value at entry.

# Beta-blockers and ARBs: friends or competitors?

## Friends

competition for blood pressure

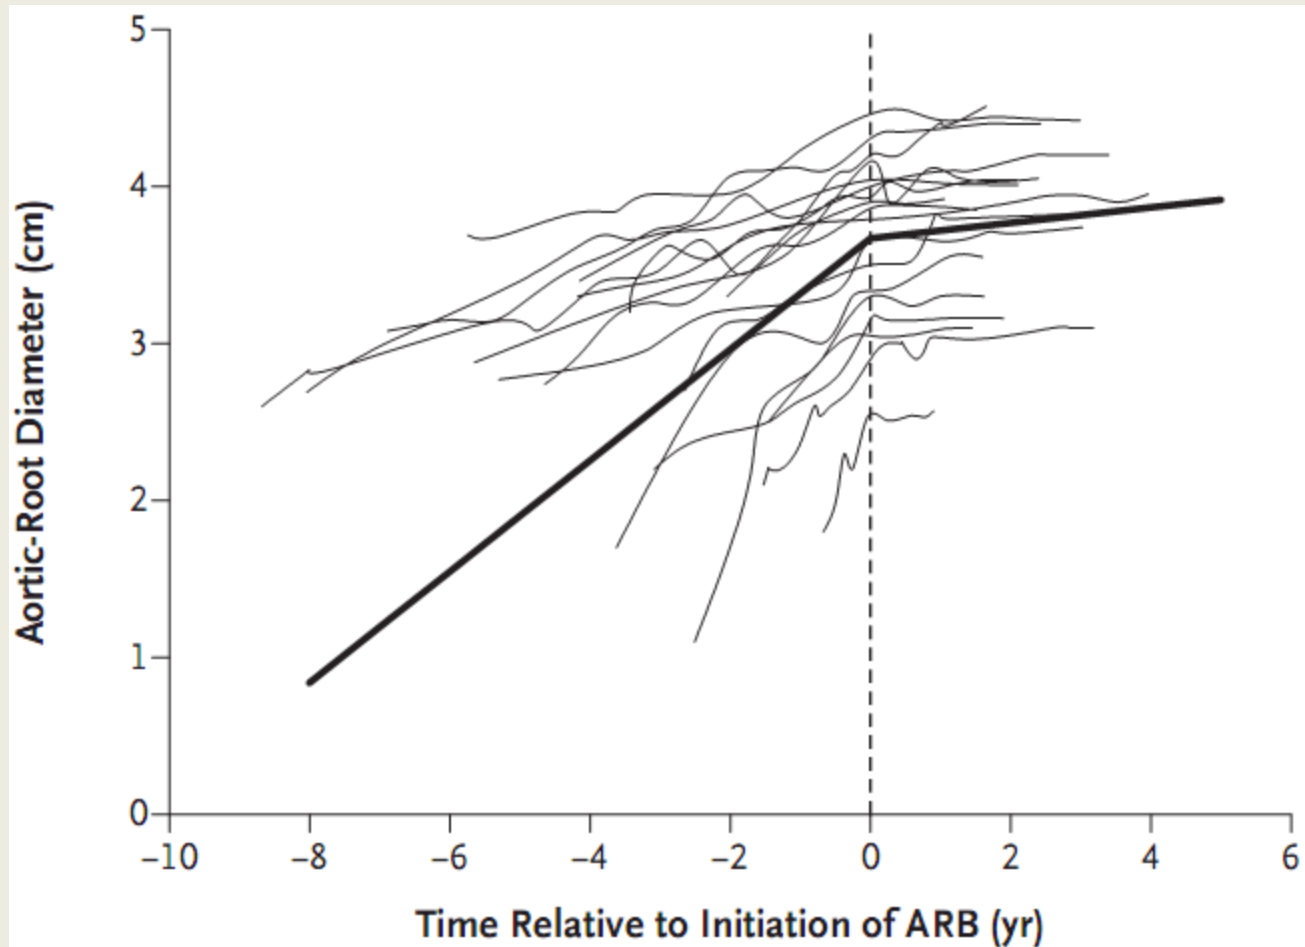

good tolerance

## Useful friends ?

friends always useful...

Thanks

*Brooke BS N Engl J Med 2008;358:2787-95*

# Beta-blockers

Described by veterinary surgeons as preventing dissecting aortic aneurysms in turkeys.

*Report on field cases of aortic rupture in turkeys treated with Reserpine. Morrison WD, 1960*

Was then found to be useful by some in treating dissected aortic aneurysms in humans.

*Acute dissecting aneurysms of the aorta, Treatment and results in 64 patients.*

*Wheat MW et al. J Thor Cardiovasc Surg. 1969;58:344*
